

PMC Resource Center

The PMC Resource Center is a value-added resource to assist clients in managing their insurance risk management, workplace safety, and OSHA compliance on a daily basis.

This secure, web-based site contains a suite of industry specific safety and risk management tools designed to facilitate all aspects of an organization's risk prevention efforts.

Programs are simple to set-up and customized by industry, enabling all employees to be safe at work. The Resource Center is designed to allow for the oversight and management of a company's entire risk management program - whether a single location or multi-location operation nationally or globally - the Resource Center is a perfect resource for the safety-conscious organization.

- Manage your Worker's Comp claims process
- Train employees online fast and easy
- Track and Report incidents, including OSHA Log s
- Comply with OSHA and other regulatory bodies
